

Multi-functional Power Bank

Product Description / Features

- Mobile auxiliary battery for USB devices, notebooks and any devices with 12-24V charging voltage
- High capacity of 24000mAh (approx. 89Wh)
- Charges most popular smartphones (Samsung, Apple, etc.) and tablets via USB-A Quick Charge (QC) and USB-C Power Delivery (PD) as well as most modern notebooks (8 adapters included) with up to 60W charging power
- 4 outputs (1x USB-A, 2x USB-C, 1x hollow plug 5,5/2,1mm), output voltage on hollow plug adjustable in 4 steps (12 / 16,5 / 20 / 24V), USB-C and hollow plug output can also be used as an input
- Wireless Charging with up to 10W integrated
- Simultaneous charging and discharging possible (when charging via USB-C input)
- High-quality Li-ion battery with long service life and efficient electronic circuitry, optimised for use with solar chargers even with low charging currents
- Internal protection circuits (overcharge, deep discharge, temperature, short circuit)
- Illuminated LCD display showing capacity and voltage
- Elegant design housing made of black ABS

Technical Data:

- Nominal capacity internal: 24.000mAh @ 3,7V (89Wh)
- Output voltage: 5 – 12V USB-QC / 5 – 20V USB-PD / 12 – 24V hollow plug
- Output power: max. 60W duration (USB-PD or 12-24V)
- Input voltage: 5V USB / 5 – 20V USB-PD, 18-24V hollow plug
- Input power: max. 60W duration (USB-PD or 18-24V)
- Loading time: 7h (USB) / 2h (USB-PD or 18-24V hollow plug)
- Temperature charging: 0 ... +45°C
- Temp. discharge/storing: -20...+60°C
- Humidity range: until 90%
- Conformity: CE, FCC, ROHS
- Dimensions/weight: 122 x 122 x 26mm / approx. 490g
